| 3/21/16                    | 3/29/16                              | 4/7/16               | 4/19/16                               |
| 4/18/16                    | 4/26/16                              | 5/5/16               | 5/17/16                               |
| 5/16/16                    | 5/24/16                              | 6/2/16               | 6/21/16                               |
| 6/20/16                    | 6/28/16                              | 7/7/16               | 7/19/16                               |
| 7/18/16                    | 7/26/16                              | 8/4/16               | 8/16/16                               |
| 8/15/16                    | 8/23/16                              | 9/1/16               | 9/20/16                               |
| 9/19/16                    | 9/27/16                              | 10/6/16              | 10/18/16                              |
| 10/17/16                   | 10/25/16                             | 11/3/16              | 11/15/16                              |
| 11/14/16                   | 11/22/16                             | 12/1/16              | 12/20/16                              |

All Plan Submittals shall be submitted to the Codes / Stormwater Department. Submittal shall consist of 6 sets of Site, Grading, Drainage and Utility Plans. Only 1 set of supporting stormwater documents such as the SWPPP and Drainage Calculations are required. The Codes / Stormwater Department will distribute the plans to all utility departments and will include their comments in one submittal back to the applicant.
